

**Stineke Oenema** has been since 2016 the coordinator of the UN System Standing Committee on Nutrition. She previously worked at the Centre for Development Innovation, Wageningen University, and chaired the Netherlands Working Group on Nutrition, a working group of NGOs, private sector actors and knowledge institutes. She chaired the European Food Security Group, supported the development of the Global Nutrition Reports during its initial years as member of the Independent Expert Group, and was part of the Coordinating Committee of the Civil Society Mechanism for the Committee on World Food Security. From 2004-2015 she was in charge of food and nutrition security and programme development in a Dutch NGO (ICCO) and was during this period a member of the editorial board of the Right to Food and Nutrition Watch. In earlier years she worked for FAO (in Vietnam and Chile) and UNICEF (Ghana).

**Jessica Fanzo, PhD** is the Bloomberg Distinguished Associate Professor of Global Food and Agriculture Policy and Ethics at the Berman Institute of Bioethics, the Bloomberg School of Public Health, and the Nitze School of Advanced International Studies (SAIS) at the Johns Hopkins University. Currently, she is on a one-year leave of absence to serve as the Senior Nutrition and Food Systems Officer in the Nutrition and Food Systems Division of the Food and Agriculture Organization of the United Nations. Jessica is also the Co-Chair of the Global Nutrition Report. Before joining Hopkins, Jessica held positions at Columbia University, the Earth Institute, the UN World Food Programme, Bioversity International, and the Millennium Development Goal Centre at the World Agroforestry Center in Kenya. Jessica has a PhD in nutrition from University of Arizona.

**Emorn Udomkesmalee** is a Senior Advisor to and a former Director of the Institute of Nutrition, Mahidol University, Thailand. She holds the position of Adjunct Associate Professor in the Department of International Health, Bloomberg School of Public Health, Johns Hopkins University. Her research interests include micronutrient assessment, bioavailability and metabolism, micronutrient interaction especially of vitamin A and zinc or iron and zinc, and micronutrient and immune function.

She is a member of the Independent Expert Group of the Global Nutrition Report; the WHO Nutrition Topic Advisory Group on ICD Revision Project; the International Zinc Nutrition Consultative Group; the Steering Committee of the Micronutrient Forum; the Global Alliance for Improved Nutrition (GAIN) Partnership Council; and the Scientific and Public Health Advisory Committee of the International Life Sciences Institute (ILSI) Southeast Asia Region, as well as its Scientific Director. She is a founding member of the International Society for Implementation Science in Nutrition (ISISN) and the Country Network Facilitator of the Scaling Up Nutrition (SUN) Movement.

She received her PhD in nutritional biochemistry and metabolism from the Massachusetts Institute of Technology (MIT) in 1985. Her postdoctoral training was at the Vitamin and Mineral Nutrition Laboratory, Beltsville Human Nutrition Research Center, United States Department of Agriculture (USDA), Beltsville, Maryland, USA, in 1987.

**Liliane Ortega** is a Swiss biologist, with a PhD in Natural Science. After several years as a researcher in tropical botany, mainly on Paraguayan and Peruvian forests, she led a Swiss research center in Ivory Coast. In 1994, she moved to the Federal Office of the Environment in Berne where she was responsible for the GEF and the UNCBD. She joined the Swiss Agency for Development and Cooperation (SDC) in 1996. She has been posted in Nicaragua and in Laos as Deputy Country Director to lead the regional

portfolio in agriculture and food security in Central America and in the Mekong region. From 2003 to 2010, she was Senior Advisor, responsible for the Food Security theme and then the Global Programme Food Security at SDC headquarter. During the same period, she was Swiss Focal point to the UN Convention on Combatting Desertification and taught at the University of Lausanne as lecturer. She has designed and steered more than 40 projects in rural development, food security and agrobiodiversity with a particular focus on chronic food insecurity and malnutrition in mountain areas and drylands. She has been involved in the development of many national policies and strategies related to FSN and agriculture, as well as in the negotiation of the Voluntary Guidelines on the Right to Food. Since 2015, she is Deputy Permanent Representative of Switzerland to the Rome-based UN agencies, Alternate Member at IFAD Executive Board and Member of IFAD Evaluation Committee. She has been Alternate Member, then Member of the CFS Bureau.

**Biplabi Shrestha** is a programme manager at the Asian-Pacific Resource and Research Centre for Women (ARROW). ARROW is a Global South-based, feminist, and women-led organization that focuses on the equality, gender, health and human rights of women and young people. Biplabi's long involvement gender equality and Sexual and Reproductive Rights (SRR) are inspired and informed by the lived realities of women and girls in Asia. At ARROW she manages a programme that aims to build new constituencies for gender equality and SRR. One of the major focus of the programme is the intersectionality between Gender, SRR and poverty and food security. As part of the same, ARROW is a member of Civil Society Mechanism (CSM) for CFS, Global Network for the Right to Food and Nutrition (GNRTFN) as well as Global Nutrition Network.

**Kittiporn Phanvijhitsiri** is a Nutritionist with more than 10 years of experience with global food and nutrition companies, including Unilever, Mead Johnson Nutrition and Ajinomoto. In his current role at PepsiCo, he partners with research scientists to support the development of a healthier product portfolio with nutritionally sound and credible claims. As part of that role, he seeks to build and strengthen public private partnerships with health care professionals in the Asia Pacific countries. He specialises in analysing, explaining and presenting research studies to demonstrate the value of an in-depth understanding of the science and benefits behind nutrients and functional ingredients. He served on the scientific expert panel subcommittees of the Thai FDA to develop Dietary Guidelines for the Thais in 2015 and to establish Thailand Healthier Logo between 2015-2017. Currently, he serves on the scientific expert panel subcommittees of the Thai FDA to effectively disseminate Thailand Healthier Logo across the nation.

A former lecturer at the Institute of Nutrition at Mahidol University (Thailand), Kit holds a Ph.D. in Molecular Metabolism and Nutrition from the University of Chicago. His Master's was on circadian rhythms at Vanderbilt following an undergraduate degree at Kasetsart University (Thailand). He is a strong supporter of new scientific research, at both local and international levels.
